**Bi-Folding Gates | Sliding Gates | Road Blockers | Bollards | Barriers | Pedestrian Gates | Turnstiles  
CRASH TESTED / CRASH RATED PRODUCTS**

## **Final Assembly Fitter**

*Come and join a leading British manufacturer!*

### **About Us**

Celebrating more than 34 years at the forefront of the Perimeter Security Industry, **Cova Security Gates** proudly design, manufacture, and install high quality, bespoke engineered perimeter security products in an increasingly challenging global environment.

Since the very beginning, our mission has always been to protect people and property from criminal or terrorist attacks globally.

Our 20,000 square foot facility is based in the heart of Manor Royal Business District, Crawley and it is from here that our experienced team manufactures all our products specific to the client's requirements and site conditions, based upon wherever the installation is required.

Our products are supplied across all industries including construction, commercial, retail, utilities, power generation, financial services, airports, rail, data centres, and emergency services. We are also renowned globally for protecting government buildings including Embassies, Foreign Commonwealth Offices, HMRC, Home Office, Ministry of Defence, Treasury, and Local Authorities.

### **The Role**

To ensure that the products and services supplied by Cova Security Gates Limited are produced to specification and in accordance with the requirements agreed by the client. The Final Assembly Fitter will receive specific drawings and a work instruction from our Design Department and will use these to assemble our products.

You will be responsible for checking the drawing and works instruction for accuracy, quantities, drawing numbers etc and collate all material(s) required with your working area for the product(s) you are working on and liaising with our Buyer for any additional materials required or report any missing items.

Daily duties will be to assemble the materials into a finished product ensuring that the aesthetics of the products are finished to a very high standard and quality. Cova are renowned in the industry for their high quality manufactured, fitted and finished product range.

Working with the rest of the Production Team (at social distancing) you will work on various products at any one time, right through to final finish assembly and ensure that our gates, rising bollards and barriers operate correctly within the tolerances set.

Once signed off by the Production Manager you will be proactively involved in the (FAT) Factory Acceptance Testing of the product(s) to ensure they meet the operational philosophy which has been pre-agreed by the client, and then assist with the dismantling and packing up of the product(s), ready for collection or delivery by our UK or international clients.

**GLOBAL PERIMETER SECURITY SPECIALISTS SINCE 1987**

**Bi-Folding Gates | Sliding Gates | Road Blockers | Bollards | Barriers | Pedestrian Gates | Turnstiles  
CRASH TESTED / CRASH RATED PRODUCTS**

Our products are designed, manufactured, and installed in some very high-profile buildings and locations all over the world including The Shard London, Stonehenge, The Treasury, Battersea Power Station, Twickenham Stadium, British Embassy Washington, British Embassy Dubai, Harrods, Canberra Stadium Australia to name a few, so this is an exciting role to work on global iconic perimeter security products destined for global locations.

Cova are looking for someone with a proactive, can-do attitude, be conscientious with the finish and quality of their work and must have previous experience in the same or similar industry.

### ***Benefits of working with us***

Competitive Salary

5 weeks paid annual holiday entitlement + public holidays Death in service benefit

Company pension contribution Free secure on-site parking

General hours are 8:00am – 4:30pm (although this may vary) please discuss at interview stage.

Overtime when available

**This is a permanent position. No agencies, please.**

**Covid-19** - Whilst most of our office colleagues are working remotely due to Covid-19, this is a factory-based role and as such applicants should be able to commute within a reasonable distance of Crawley Manor Royal, West Sussex.

In line with Government recommendations our factory Production Team operate to all recommended safe distancing and sanitising procedures, we naturally take all our employee health and safety seriously. In applying for this position, you can be reassured we adhere to all recommended guidelines.

To apply for this role, please email a CV and covering letter to: [recruitment@covasecuritygates.com](mailto:recruitment@covasecuritygates.com)
